

The CSX Explorer Post 333 is a chance for youth to learn and experience what it takes to be a part of today's business world. As a post, we do many activities together to help gain the experience that is needed to not only get a good job, but run a business of your own.

BUILDING A BETTER TOMORROW
WITH THE TOOLS OF TODAY

Jamie DeFrates

The Business Of Music:

As a post, our most recent event was having music pioneer Jamie DeFrates come visit one of our meetings. Mr. DeFrates talked to the post about his experiences with music, how we as youth could get involved with it, and how what he's learned can help us in life whether it be in music or anything else. Something that he shared during his visit that the post found interesting was that he's created the tunes to a lot of theme park rides. He

showed us a little bit on his computer of how he makes his own music. A good number of the post members are interested in producing music themselves so seeing what software's Mr. DeFrates uses really gave a lot of good insight. One of Jamie DeFrates biggest points of the night was that if you love something, you should be ambitious about it. Overall, it was just a great pleasure having Mr. DeFrates' company.

Got An Idea???

As you can see, this is our first official issue of "The Newsletter" (which isn't even the ideal name that we were shooting for). This is exactly why we need YOUR input. Have a suggestion for a new title? New design? New topic for the next issue? Just let any of the CSX Business Explorer Post Officers know your ideas; what you create could be what the next issue is all about! Remember, the more ideas we have to choose from, the better the outcome could be!
